

MRemodeling, along with team members MODA Floors & Interiors and Recentered Pieces, recently won a National Contractor of the Year Award (CotY) for Residential Interior Element. The award is sponsored annually by the National Association of the Remodeling Industry.

An impartial panel of judges from within the industry and associated fields selected winners based on each entrant's binder, which included "before and after" photography and project descriptions. Judging focused on problem solving, functionality, aesthetics, craftsmanship, innovation, degree of difficulty and entry presentation.

The winning entry turned a regular fireplace makeover into a customized 16-foot structure that accommodates hundreds of pounds of black marble on the wall. Complex framing and custom steel brackets were fabricated to assist in creating the structure as well as maintaining pressure points to prevent crushing.

MRemodeling is a McDonough, GA-based residential remodeler. Located in Atlanta's West Midtown Design District, MODA Floors & Interiors is a flooring and window coverings design and installation resource. Recentered Pieces is a design studio with artists/designers in various media who create art using repurposed materials and commercial building debris.
